CUMULATIVE INDEXES

Cumulative indexes are available for *Physics Abstracts*, *Electrical & Electronics Abstracts* and *Computer & Control Abstracts*, for both

authors and subjects. These cumulations cover a period of four years. The table below

shows the prices and periods for the two types of cumulative index.

ORDERING PROCEDURE

THE AMERICAS

North (including Canada), Central and South

All orders from the above areas, and orders from members of the Institute of Electrical and Electronics Engineers Inc. anywhere in the world, should be sent to Fulfillment Manager, Institute of Electrical & Electronics Engineers Inc., 445 Hoes Lane, P.O. Box 1331, Piscataway, N.J. 08855-1331, USA. Telephone (908) 981 0060.

REMAINDER OF THE WORLD

All remaining subscriptions should be sent to INSPEC, P.O. Box 96, Stevenage, Herts SG1 2SD, United Kingdom. Telephone (01438) 313311, Telex 825578 IEE STV G. Facsimile (01438) 742792.

OTHER INSPEC SERVICES

SDI

(Selective Dissemination of Information.)

This is a service individually tailored to the requirements and interests of the engineer or research worker. Every two weeks details of information relevant to the interest profile of the individual subscriber are selected from the data being processed for the INSPEC Database.

TOPICS

This is an SDI service based on standard profiles. There are over 80 subjects covering high-activity areas of research and development. This is an inexpensive service designed to alert engineers and researchers to the availability of literature within their subject area.

TAPES

The INSPEC Tape Services contain all the information included in the INSPEC publications. They are updated 50 times per year. They enable the larger research and development organisations to produce their own internal information and current-awareness services.

INSPEC Gives You the World...

We Have it All!

The INSPEC Database has it all. Our broad coverage in the major disciplines of Physics, Electrical Engineering & Electronics, Computer Science, Control Technology, and Information Technology have made us a vital research tool for any organization that does technical research. In addition, INSPEC is cost effective for universities and libraries because it provides a good resource for those in multidisciplinary fields such as Astronomy, Materials Research, Information Science, Biomedical Engineering and Medical Electronics, and Communications.

Comprehensive Indexing

INSPEC's indexing is among the most respected in the business. Our indexers are subject specialists, so we ensure knowledgeable, consistent indexing. In addition, the indexing includes not only the usual Thesaurus Term and Classification Code indexes, but also the Uncontrolled Index Terms, Treatment Codes, Chemical Substances Indexing, Numerical Data Indexing, and Astronomical Object Indexing.

Current

The INSPEC Database is updated weekly on most systems to ensure timeliness, so you can be sure that the information you are receiving is the best and most current available.

...online, on tape, on CD-ROM and Print!
